Competent Authority - Apostille & Certificate of Authentication

For use by any Common Law Human Being for legalization/fictionalization a document within The Common Law and use in any foreign government .

INSTRUCTIONS

Apostilles and Certificate of Authentications are for use to ensure Lawful documents are recognized as Legal.

A more accurate term for legalization is legal fictionalization.

These documents may be made, issued, and used by any Lawful Human Being at The Common Law. An Apostille and Certificate of Authentication confers the legalization/fictionalization of any Lawful document to be recognized as a Legal document within a legal system/franchise, such as a Legal State or Nation.

Apostille or Certificate of Authority?

The *Hague Convention of 1961 Abolishing the Requirement for Legalization of Foreign Public Documents* is a convention (set of model statutes) that signatories, according to the convention, recognize each others legal documents as legalized/fictionalized without the need to legalize the documents with the Embassy/Consular of another Foreign Nation.

By being party to this Convention, nations may exchange Negotiable Instruments (as defined by U.C.C. - Article 3) and other documents without the need to legalize the documents. This includes Birth Certificates, Death Certificates, Marriage Certificates, and Vehicle Titles, among other things.

The World Service Authority (W.S.A) is not a recognized "Competent Authority" according to the Hague Convention as the WSA has not filed with the Netherlands - Ministry of Foreign Affairs for this status. The WSA is a lawful organization though not legal. They transcend the legal system and thus does not need external validity to be legal.

This said, U.C.C. 2012127810, 2012127854, 2012127907, and 2012127914 foreclose upon all corporate franchises and banks worldwide making the requirement for filing with the Netherlands - Ministry of Foreign Affairs impossible as they do not legally nor lawfully exist according to these U.C.C. For more information see <http://i-uv.com> and <http://courtesynotice.com>

As the requirements for being a "Competent Authority" is abolished, any Lawful Human Being may simply lawfully and legally declare themselves a "competent authority", as amended by these U.C.C. and is legitimate. This is the reasoning for issuing Apostilles despite other foreclosed nations and states not recognizing their foreclosure.

An **Apostille** should be used for legalization, fictionalization, and recognition of documents in any Foreign Country that is party to this Hague Convention. With an Apostille, the legal document does not need to be processed and annexed by any Embassy; the document will simply be "recognized" in the country.

A **Certificate of Authentication** needs to be used for any county not party to this Hague Convention. These documents need to be filed, processed, sealed and annexed by a Foreign Country's Embassy/Consular before it is recognized as legitimate within the other country. Use this document and process when the document needs to be recognized by the Foreign government for an inviolable purposes, where the legalized document cannot have any issues in the eyes of the agents in the foreign country.

See the Hague Convention website for a list of Nation party to this Convention: <http://hcch.net>

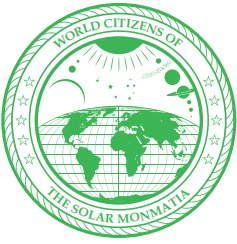

All major Nations, as of this writing, are members of this convention. Many of the small nations are not party to this convention.

HOW TO FILL OUT AN APOSTILLE

These are easy to fill out. They required 10 fields be filled. You may use the large format or the small format version of this document.

- 1. Country-** The issuing country. In this case, the World.
- 2. Has been Signed By-** Enter the full name of the person signing the Apostille. This is subject to the rules of a legal name, thus UPPER CASE and *Italics* is evidence of a legal presence name.
- 3. Acting in the capacity of-** The role of the entity signing the document. This would typically be a "Human Being, Notary Public".
- 4. Bears the seal/stamp of-** By using the included Red Great Seal of The Common Law, this would be "The Common Law". Should you create your own Seal, you may refer to it by using your name followed by the "The Common Law".
e.g. "John Q Doe, The Common Law"
- 5. At-** This is the location of the issuance of the document. Typically this should be "The Common Law" to establish that "code" of conduct as prevailing with the Apostille. "At" is a term of legal entrapment, so be aware of the responsibilities of using this field.
- 6. The-** This is the current Month, day and year. e.g. "March 10th, 2015"
- 7. By-** This is the issuing authority office held by the entity signing. For an Apostille, this could be "Human Being, Notary Public, The Common Law.
- 8. Number-** This is the unique ID of the Apostille. We recommend that you prepend/append any ID Number and the ID Type:
 - P- Passport
 - I- Identity Card
 - B- Birth Certificate
 - U- UnregisteredIn this case use any 5-8 digit number.
e.g. "81735P-00001" where the Passport number is 81735 and the apostille unique number is 00001.
Each Apostille and Certificate of Authentication should then increment the second number for use on the next document, if there is one.
- 9. Seal/Stamp-** This requires printing the document a second time with the Great Seal of the Common Law below the text "Seal/Stamp". You may create and use your own Seal. Your seal may be created as a stamp and/or an emboss with a sticker.
- 10. Signature-** Sign on the line. To sign digitally, prepend the text "/s/" before the signature. (e.g. "/s/ John Q Doe©", "/s/ John-Q: Doe© representing DOE, JOHN Q.©")

Authority Contact Information- There is an eleventh field to ensure proper Competent Authority status, as amended by the listed UCC. Enter your contact information such as mailing address, phone number, fax number, and/or email address at the bottom of the page where those foreign officials receiving the document may verify the apostille with you, the issuer. This is to ensure that the document can be and is properly verified by any foreign government upon Sealing and Annexing by the Foreign Government.

WORLD CITIZENS OF THE SOLAR MONMATIA

Competent Authority - Apostille & Certificate of Authentication

For use by any Common Law Human Being for legalization/fictionalization a document within The Common Law and use in any foreign government .

HOW TO USE AN APOSTILLE

Once the Apostille is filled out, staple or otherwise physically connect it to the legalized/fictionalized document. Then use the document.

HOW TO FILL OUT A CERTIFICATE OF AUTHENTICATION

These are very easy to fill out.

1. Document Number- This is the unique ID of the Certificate of Authentication. We recommend that you prepend/append an ID Number and the ID Type:

P- Passport

I- Identity Card

B- Birth Certificate

U- Unregistered In this case use any 5-8 digit number.

e.g. "81735P-00001" where the Passport number is 81735 and the Certificate of Authentication unique number is 00001.

Each Apostille and Certificate of Authentication should then increment the second number for use on the next document, if there is one.

2. Date- Enter the day, month, and year above your signature.

3. Signature- Sign on the line. To sign digitally, prepend the text "/s/" before the signature. (e.g. "/s/ John Q Doe@", "/s/ John-Q: Doe@ representing DOE, JOHN Q.@")

4. Authority Contact Information- Enter your contact information such as mailing address, phone number, fax number, and/or email address at the bottom of the page where those foreign officials receiving the document may verify the apostille with you, the issuer. This is to ensure that the document can be and is properly verified by any foreign government upon Sealing and Annexing by the Foreign Government.

HOW TO USE A CERTIFICATE OF AUTHENTICATION

Once the Certificate of Authentication is filled out, staple or otherwise physically connect it to the legalized/fictionalized Lawful document. To be recognized in the Foreign Country, it must be sent to the Embassy/Consular of that Foreign Country for Sealing and Annexing within the legal system.

EXAMPLES OF USE

This are examples of usage for an Apostille and a Certificate of Authentication.

An Apostille may be used for issuing legal documents such as a contract, negotiable instruments, and educational papers.

A Certificate of Authentication may be used for inviolable legal documents such as a Common Law ID and/or Passport to be legalized within an Embassy for "legal recognition" in that country.

Certifying a Common Law ID and/or Passport with your country's Embassy/Consular does not guarantee that it would or could be recognized despite it being officially legalized/fictionalized. No Common Law Identity needs to be fictionalize for it to be Valid Lawful Identification and for the usage of a Passport. Many governments have not recognized lawful identities for their lack of legalization.

HOW TO USE THE INCLUDED SEAL

You may print a second time to include the Great Seal of the The Common Law over your document in the proper location.

To achieve a "stamp" effect, from within Photoshop or another photo editor, Go to Effects > Brush Strokes > Spatter. Play with the settings to achieve a stamped ink effect via printer.
